NPF CLOTH

LEVEL 5 FABRIC

NPF is soft to the touch but engineered to be strong. Anti-Microbial: Nanocide® suppresses the growth of algae, mold, mildew, fungi and bacteria growth and proliferation which cause unpleasant odors, discoloration, staining, and deterioration of the product. Take every specification and attribute of best selling high performance fabric and incorporate NANOCIDE and the result is NPF, the most technology advanced Transportation Seating Fabric available on the market.

FEATURES

- Antibacterial
- Antimicrobial
- Water Repellent Surface
- Waterproof Barrier Back Coating
